

SYRIA CRISIS UN RECENT HUMANITARIAN AID FOR MADAYA, KAFRAYA AND FOA

The international community kept pushing the Syrian Regime to deliver humanitarian aid to some besieged areas in Syria. Finally, the Syrian Arab Red Crescent made a contact with controlling forces to enter humanitarian aid to besieged town of Madaya in Rural Damascus that was besieged since July 5, 2015 and to Kafraya and Foa villages in Idlib countryside. It should be noted that UN has considered Kafraya and Foa as besieged area, despite the continuous provision of air lift by regime to those villages and securing all its requirements including food assistance, fuel, weaponry and even salaries for fighters.

Assistance Coordination Unit calls United Nations to prohibit using food as a weapon against civilians and opening all routes to besieged areas.

Madaya

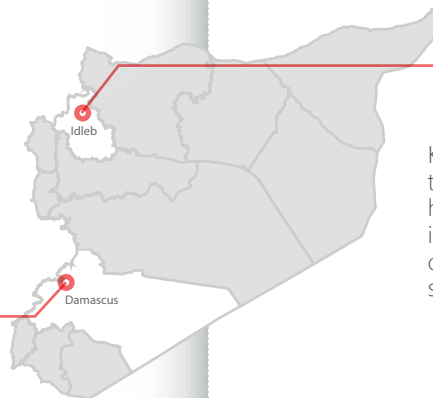

40,000

Individuals in the Town

Before Aid Delivery

No humanitarian assistance was delivered to Madaya, and **several death cases out of starvation were reported** due to tight blockade

Before Aid Delivery

Kafraya and Foa villages obtain all their requirements via regime's helicopters and do not need any inland assistance. In addition, no casualties were registered due to starvation.
