3,253 violations of truce committed by the Regime and its Russian ally

After the Turkey and Russia reached a ceasefire agreement in Idlib governorate on March 5, 2020, the Syrian regime and its Russian ally did not bomb northwest Syria with warplanes. However, the regime continued to bomb these cities and towns with heavy artillery and rockets from ground launchers. On June 2, 2020, Russian warplanes resumed bombing cities and towns in northwest Syria, and the regime continued to bombard them with heavy artillery and rockets from ground launchers. Through its network of enumerators, ACU worked on documenting the regime's breach of the ceasefire. As of the date of preparing this report, the Syrian regime and its Russian ally have violated the ceasefire 3,253 times.

Violations of the truce committed by the Regime last year

After the ceasefire came into effect, Turkish and Russian forces began conducting joint military patrols on the contact lines between the regime forces and the opposition forces, as these patrols run along the M4 international road. These joint forces aim to monitor the implementation of the ceasefire and de-escalation on the contact lines. However, Russian forces stopped participating in these patrols in mid-September 2020.
