

Field Development Report

Weeks 48/49 - Nov 2023

The Field Developments Reports pertain to ongoing events in Northern Syria. The ACU meticulously prepared and disseminated these reports based on information from the field enumerators. They provide a comprehensive account of occurrences in the area, encompassing a wide spectrum of incidents, including truce violations, clashes, military strikes, bombardments, instances of fires, or any other noteworthy events. These reports are issued weekly and offer a day-by-day chronological breakdown of the emerging incidents, enabling stakeholders to stay well-informed and apprised of the dynamic situation on the ground.

The Syrian regime and its Russian ally committed ceasefire violations after Turkey and Russia reached an agreement on a ceasefire in Idlib on March 2020⁵. However, they continued to shell these cities and towns with heavy artillery and rocket launchers. Through a network of enumerators, the ACU works to document the ceasefire violations.
