

Population Tracking in Northern Syria

February 2024

Coverage

3,076

Communities

782

IDP camps

Methodology

The baseline numbers were collected by ACU's enumerators during July and August and cross-checked with HNAP population numbers in November 2022, and with population data provided from vaccination campaigns. The study aims to track the monthly movement of population on a monthly basis through the data being collected by the ACU field enumerators monthly from the key informants (community focal points) at the community level.
