

Field Development Report

Weeks 29/30 - July 2024

The Field Developments Reports cover ongoing events in Northern Syria, providing a detailed account of incidents across the region. They encompass a broad range of incidents, such as truce violations, clashes, military strikes, bombardments, fires, and other significant events. These reports are published biweekly and include a weekly chronological breakdown of emerging incidents through a dashboard, ensuring stakeholders are well-informed about the dynamic situation on the ground.

As of the release of the field developments dashboard on August 2023², the Syrian regime and its Russian ally have committed 293 ceasefire violations. It is notable that despite Turkey and Russia reaching a ceasefire agreement in Idlib on March 2020⁵, these areas continue to be targeted with heavy artillery and rocket fire.
